OUR VISION, MISSION & VALUES

Vision Statement

To be a leader in innovative software solutions, transforming businesses through cutting-edge technology and exceptional service.

Mission Statement

To deliver high-quality, user-centric products that drive success and growth for our clients, fostering creativity and innovation through a collaborative approach.

OUR SERVICES

DIGITAL MARKETING

Our digital marketing services are designed to boost your online presence and drive targeted traffic to your business. We create comprehensive strategies that encompass SEO, social media marketing, content marketing, and paid advertising to help you reach your audience and achieve measurable results.

UI UX DESIGNING

Our UI/UX designing services focus on creating intuitive and engaging user experiences. We prioritize user-centric design principles to ensure your digital products are not only visually appealing but also easy to use, enhancing overall customer satisfaction and loyalty.

OUR SERVICES

IOS DEVELOPMENT

Our iOS development team specializes in creating high-performance, feature-rich mobile applications for Apple's ecosystem. We leverage the latest technologies and best practices to deliver apps that are robust, secure, and optimized for seamless performance on all iOS devices.

ANDRIOD DEVELOPMENT

Our Android development services provide customized mobile solutions tailored to the Android platform. We build scalable and responsive applications that offer a superior user experience, leveraging the full potential of the Android operating system.

OUR SERVICES

WEBSITE DEVELOPMENT

Our website development services cover the entire spectrum of web solutions, from simple landing pages to complex web applications. We use the latest technologies to create responsive, user-friendly websites that effectively represent your brand and engage your audience.

Artificial Intelligence

Our AI services integrate advanced artificial intelligence solutions into your business processes. We develop intelligent systems that can automate tasks, analyze data, and provide actionable insights, helping you to make informed decisions and stay ahead of the competition.

OUR SERVICES

SEO

Our SEO services are designed to enhance your website's visibility and ranking on search engines. We employ a range of techniques, including keyword research, on-page optimization, link building, and content creation, to drive organic traffic to your site and improve your online presence.

HOW WE WORK

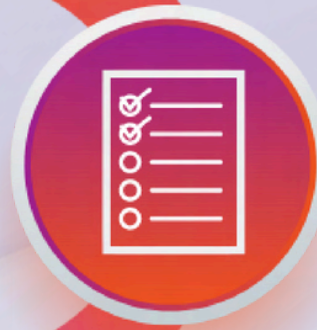

Discovery

We begin by understanding your business, goals, and requirements through detailed discussions and research. This helps us tailor our solutions to meet your specific needs.

Planning

We develop a comprehensive project plan, outlining the scope, timeline, and resources required. This ensures clarity and sets the foundation for a successful project.

Design

Our design team creates intuitive and visually appealing designs, focusing on user experience and interface. We provide mockups and prototypes for your feedback and approval.

Development

Our developers bring the designs to life, coding and building the solution using the latest technologies and best practices. We maintain open communication to keep you updated on progress.

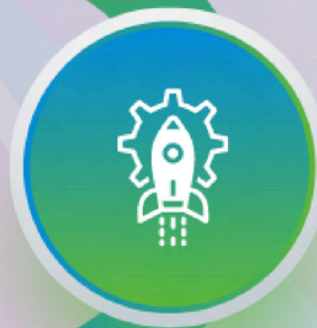

Testing

We conduct thorough testing to identify and fix any issues, ensuring the product is robust, secure, and performs flawlessly across all devices and platforms.

Launch & Support

We launch your product and provide ongoing support and maintenance. Our team is always available to make updates, address any concerns, and ensure your solution continues to meet your needs.

OUR PROJECTS

IOS/ANDROID APP DEVELOPMENT

Bajao is one of the fastest growing music streaming service in Pakistan with the music catalogue size of 1 Million+ Audio and Video songs and growing. Stream your favorite music or discover the next big artist on Bajao!

IOS/ANDRIOD APP DEVELOPMENT

Islam360 delivers an exceptional Quran reading experience while delivering features like multi-language translations, and tafseer from renowned Islamic scholars endorsed by the Islamic community.

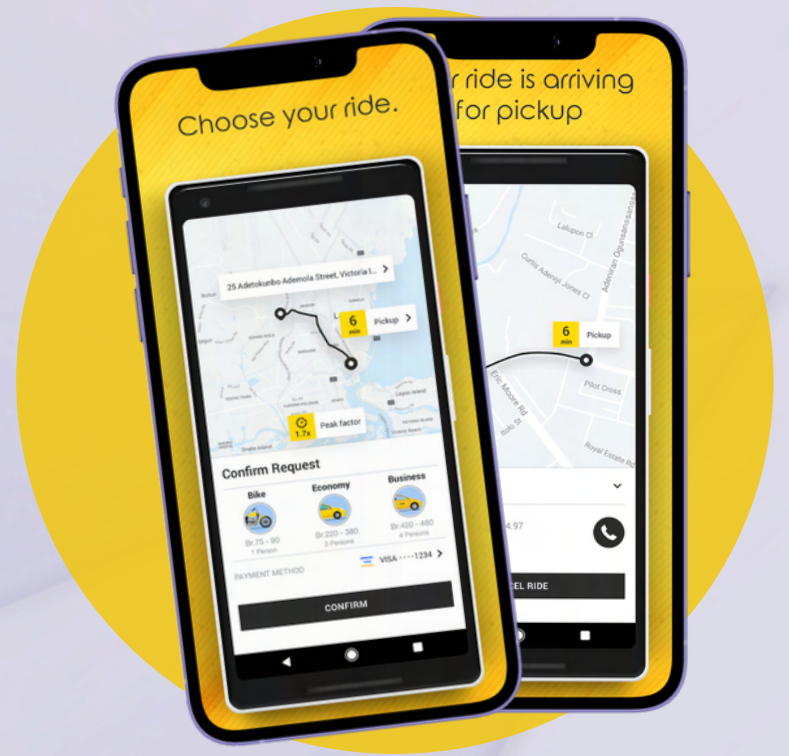

OUR PROJECTS

IOS/ANDROID APP DEVELOPMENT

Midriva is an app for fast and reliable rides that are affordable and available 24/7. There is no more calling drivers, no more waiting in lines, just pin your location you wish to go and drivers will respond shortly after no more scrambling or waiting for change as you can pay with Credit Debit Card or the old fashion way Cash.

IOS APP DEVELOPMENT

The Zalmi App, the Official App of Peshawar Zalmi, offers fans everything they need: live updates, match center notifications, news, interviews, and videos from the Pakistan Super League. Connect with fellow fans, join local supporter clubs, enjoy extended highlights and player videos, submit questions to players, and share ZALMI GIFs.

IOS/ANDROID APP DEVELOPMENT

Mobile Fuel is an on-demand app that brings essential automotive services right to your doorstep. Offering fuel delivery, car/bike wash, and mechanic services, Mobile Fuel is designed to provide convenience and reliability for busy individuals. Experience hassle-free vehicle care with the click of a button using Mobile Fuel.

OUR PROJECTS

IOS APP DEVELOPMENT

Xtruck is a mobile app that streamlines the trucking service, connecting drivers with end users efficiently. By automating the logistics process, Xtruck simplifies freight management and enhances communication between all parties involved. Experience a new level of convenience in trucking with Xtruck.

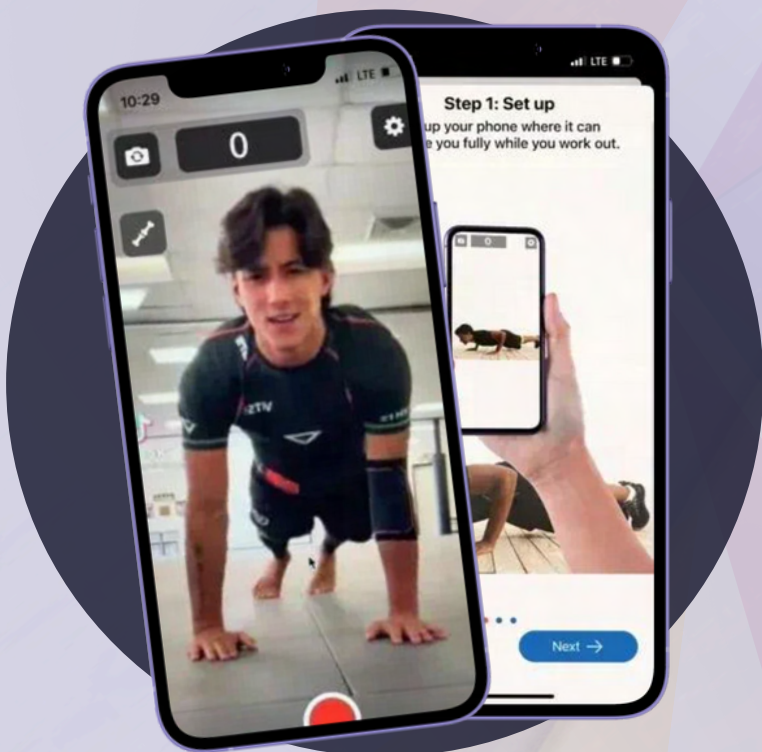

IOS APP DEVELOPMENT

Hairlines provides on demand mobile hair cutting and styling services in the comfort of your own home or facility. We also specialize in special needs children and adults with developmental disabilities

IOS APP DEVELOPMENT

For iPushup, we developed a fitness app that leverages machine learning to detect and count users' push-ups through the app's camera. The app provides real-time feedback and accurate counting, helping users track their progress and improve their fitness routines. With its advanced technology and user-friendly interface, iPushup offers an innovative and engaging way to enhance workout sessions.

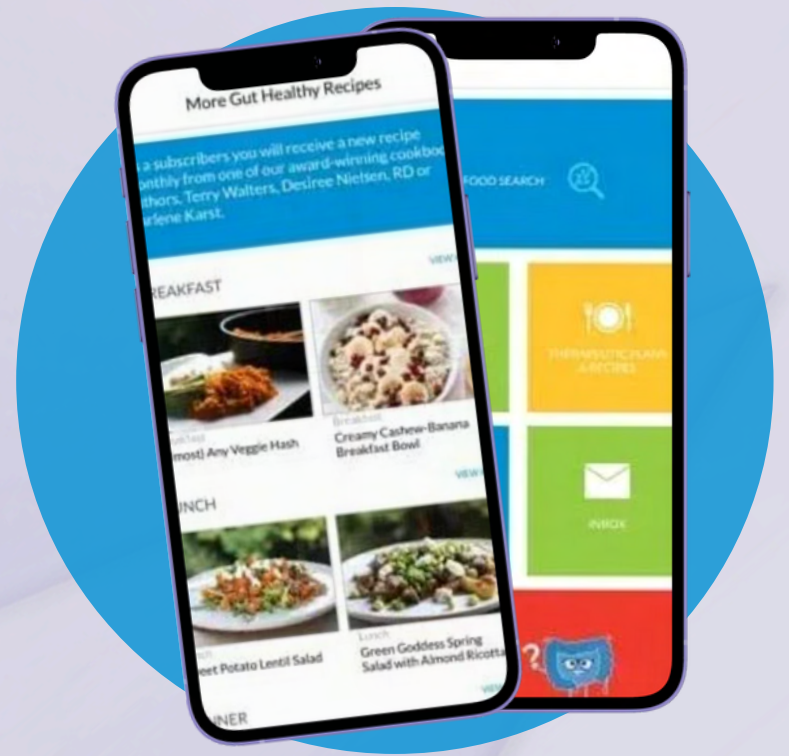

OUR PROJECTS

IOS APP DEVELOPMENT

For My Healthy Gut we developed an iOS app that allows users to input their symptoms and receive personalized dietary suggestions. The app also tracks user data, which can be manually entered, helping individuals monitor their nutritional intake and health progress. With its intuitive interface and tailored recommendations, Guided Nutrition provides users with a comprehensive tool for managing their diet and improving overall well-being.

IOS/ANDROID APP DEVELOPMENT

Manchester based, Yamup is an On-demand African and Caribbean app based grocery service where you will be able to purchase all your favourite fresh foods within 2 hours via our app

IOS/ANDROID APP DEVELOPMENT

Whipp is a versatile vehicle booking app that offers users the flexibility to book a car for hourly journeys or secure a driver for a one-way trip. With options for both car rentals with drivers and driver-only services, Whipp caters to diverse transportation needs. Experience convenience and reliability in your travel plans with Whipp.

OUR PROJECTS

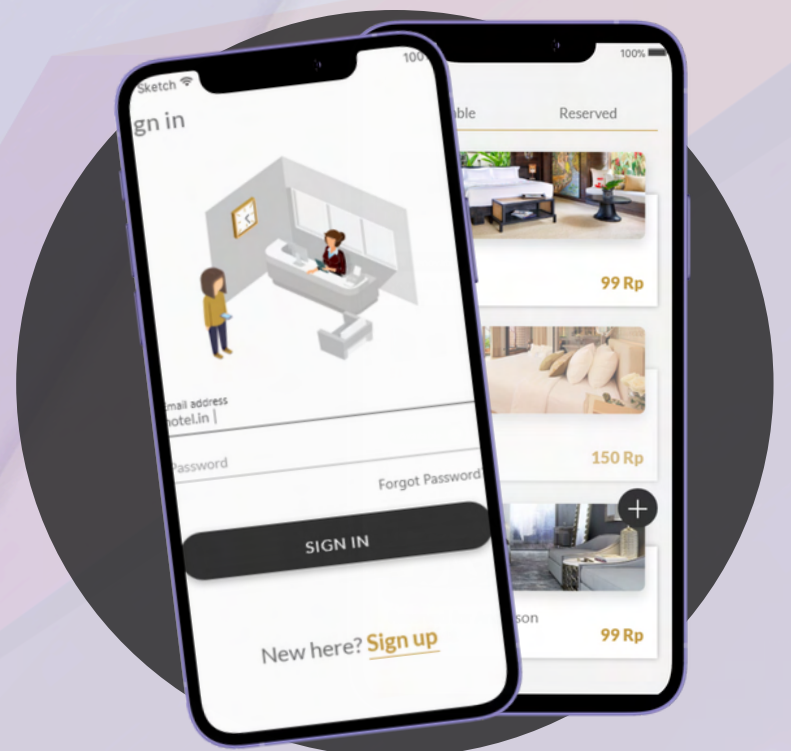

IOS APP DEVELOPMENT

Boon4 is the first on-the-way delivery network in Malaysia. The app-based community utilizes unused capacity in passenger vehicles, connecting people with stuff to send with drivers already heading in that direction. Simply put, Boon4 is a faster, cheaper, friendlier way to get your goods, no matter its shape or size, from where it is to where it needs to be. The Boon4 app enables efficient, low-cost delivery for senders and rewards drivers for trips they were already taking.

IOS/ANDROID APP DEVELOPMENT

Bitnit is a cutting-edge hotel room booking app designed for seamless and efficient reservations. With a user-friendly interface and a vast selection of accommodations, Bitnit makes finding and booking the perfect room easier than ever. Experience hassle-free travel planning with Bitnit.

IOS APP DEVELOPMENT

We developed the Doctoc app as a secure, HIPAA-compliant tool for physicians and health professionals. It enhances communication among providers, hospitals, and clinics, optimizing workflows and improving patient care through its user-friendly interface.

OUR PROJECTS

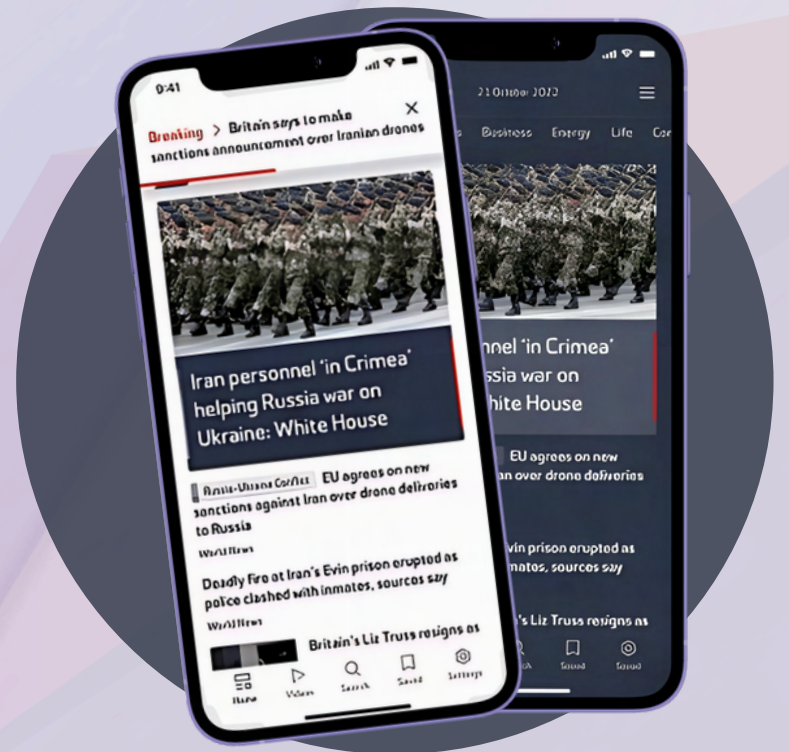

IOS APP DEVELOPMENT

Prayer Times is a comprehensive iOS app designed to help users keep track of their daily prayers. With accurate prayer times, Qibla direction, and an easy-to-use interface, this app ensures that you never miss a prayer. Additional features include access to the Quran, customizable prayer notifications, and a built-in Islamic calendar. Whether you're at home or traveling, Prayer Times provides all the essential tools for your spiritual needs.

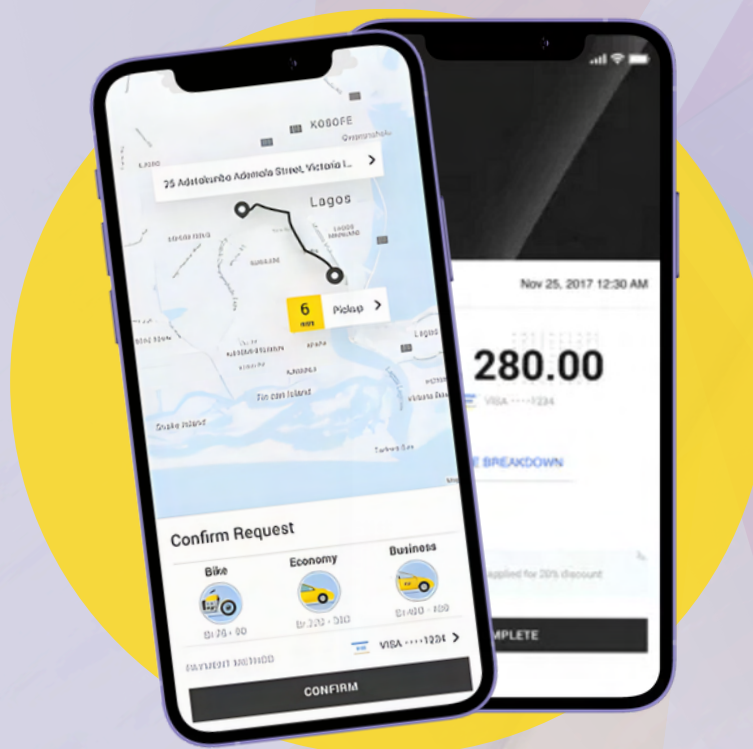

IOS APP DEVELOPMENT

For Alarabiya News Channel, we developed an iOS mobile app designed to deliver real-time news and updates efficiently. The app features a clean, user-friendly interface with seamless navigation, allowing users to access the latest news, live broadcasts, and in-depth analysis effortlessly. Our team ensured the app is optimized for performance, providing a reliable and engaging news consumption experience.

WEB & MOBILE DEVELOPMENT

A mobile app developed with the same principles as Uber, offering a convenient and reliable way to book rides. Our app features a user-friendly interface, real-time tracking, and secure payment options. With RideEasy, users can quickly find and book nearby drivers, view estimated fares, and enjoy a smooth and efficient transportation experience.

OUR PROJECTS

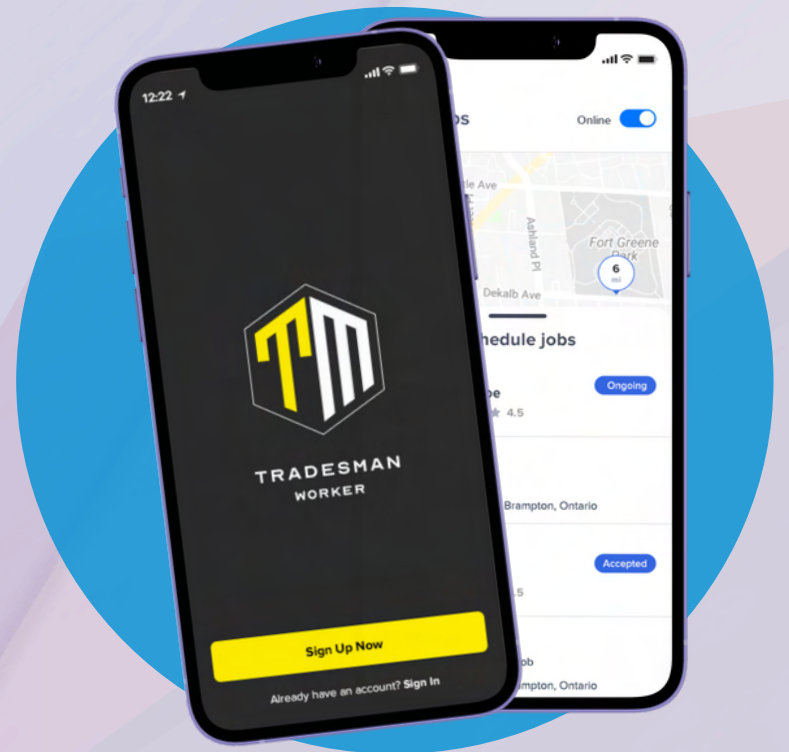

IOS/ANDROID APP DEVELOPMENT

Paddle app connects you with local tradespeople in seconds, for all of your home improvement needs.

Chat now with a local plumber, electrician, decorator, handyman or any one of the 28 trades online near you and hire.

IOS/ANDROID APP DEVELOPMENT

Tradesman is a mobile app designed to connect users with skilled tradesmen across various trades. Whether you need a plumber, electrician, or carpenter, Tradesman makes hiring professionals quick and easy. Simplify your home maintenance and repair needs with Tradesman.

IOS APP DEVELOPMENT

we developed a platform where trainers and customers can sign up and connect. The app allows gym trainers to provide training courses to customers, facilitating easy access to fitness guidance and expertise. With its user-friendly interface, Tunnin helps trainers manage their sessions and customers find the right training programs, promoting a streamlined and effective fitness experience.

OUR PROJECTS

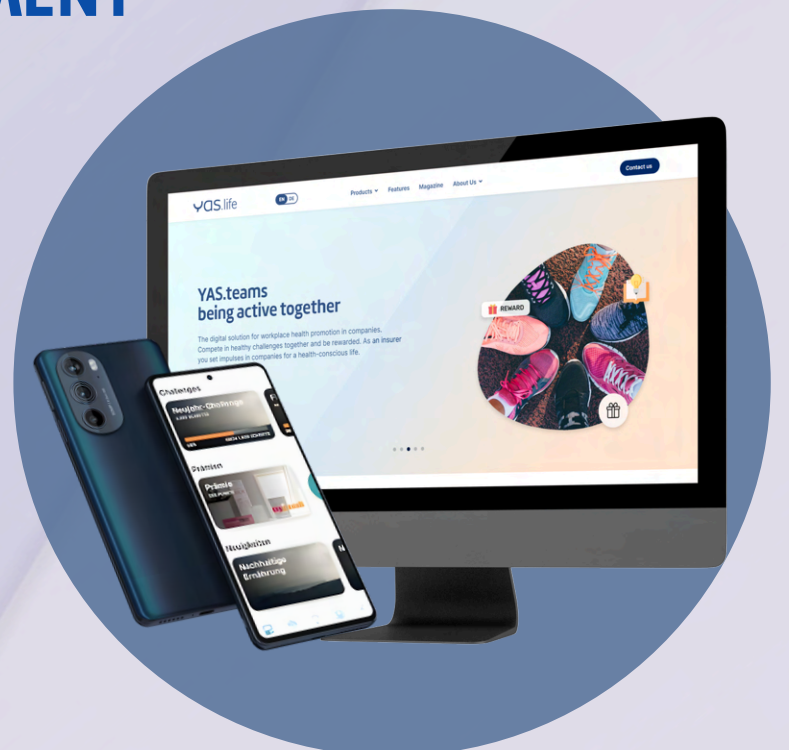

WEBSITE DEVELOPMENT

For Albaan, we developed a sleek, user-friendly website tailored to their brand's unique identity. Our team focused on creating an intuitive interface and seamless navigation to enhance user experience. The project involved comprehensive design and development, ensuring the website is both visually appealing and functionally robust.

IOS & ANDROID & WEBSITE DEVELOPMENT

For Yas.life, a fitness app, we developed sophisticated iOS and Android applications focused on promoting a healthier lifestyle through gamification and rewards. The apps provide personalized workout plans, activity tracking, and motivational challenges. Designed for both individual users and corporate wellness programs, Yas.life aims to integrate healthy habits into daily life, encouraging consistent engagement and long-term wellness.

WEBSITE DEVELOPMENT

For Car Aesthetics, a premier car wash company, we developed a dynamic website designed to attract and engage customers. The site features a modern design with easy navigation, allowing users to book services, view pricing, and learn about special offers effortlessly. Our team ensured that the website is mobile-friendly and optimized for performance, providing an excellent user experience across all devices.

OUR PROJECTS

WEB & MOBILE DEVELOPMENT

For Shopp, an eCommerce project, we delivered a comprehensive digital solution including a fully integrated website, and both iOS and Android applications. Our team created a cohesive, seamless shopping experience across all platforms, ensuring users could effortlessly browse products, make purchases, and manage their accounts.

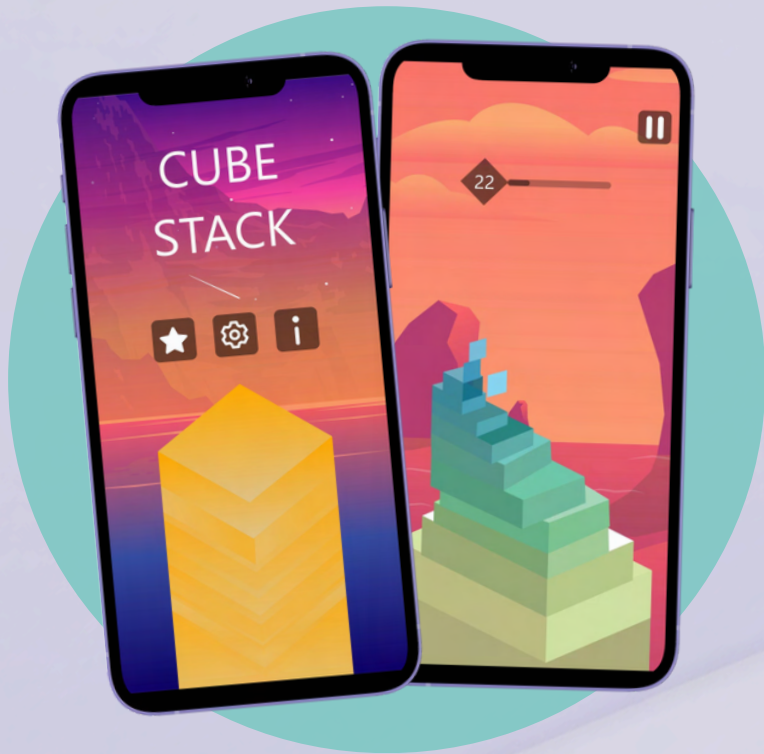

GAME DEVELOPMENT

Catch the Color is a unique mobile game built with Flutter that tests your ability to match color names with their displayed font colors. The game offers a sleek interface, eye-catching visuals, and mentally stimulating challenges. Players can enjoy a competitive edge, striving to enhance their cognitive skills while aiming for high scores and sharing the fun with friends. With its varied levels and increasing difficulty, Catch the Color promises an engaging and mentally rewarding experience.

OUR PROJECTS

GAME DEVELOPMENT

Cube Stack is an engaging mobile game developed using unity that challenges players to stack cubes as high as possible. Our team designed and developed the game to feature intuitive controls, vibrant graphics, and addictive gameplay. Cube Stack offers a fun and competitive experience, encouraging players to beat their high scores and compete with friends.

GAME DEVELOPMENT

Color Switch is an engaging mobile game developed with Unity that challenges players to navigate a ball through obstacles by matching its color. Our team designed the game with intuitive controls, vibrant graphics, and addictive gameplay. Color Switch offers a fun and competitive experience, encouraging players to beat their high scores and compete with friends.

GAME DEVELOPMENT

Line Puzzle is a captivating mobile game created with Unity that challenges players to connect all the dots in each level. Our team crafted the game with easy-to-use controls, vivid graphics, and engaging gameplay. Line Puzzle delivers an enjoyable and competitive experience, motivating players to surpass their high scores and challenge friends.

OUR PROJECTS

GAME DEVELOPMENT

Wordy is an engaging mobile game developed with Unity that challenges players to match letters and create words. Designed with an intuitive interface, vibrant graphics, and thought-provoking puzzles, Wordy offers a delightful and stimulating experience. Players can improve their vocabulary and spelling skills while competing for high scores and challenging friends.

GAME DEVELOPMENT

Matches Puzzle is a captivating mobile game where players solve puzzles by moving matches. Developed with Unity, the game features intuitive controls, immersive graphics, and challenging puzzles. Players must strategically rearrange matches to solve each level's unique puzzle, stimulating their problem-solving skills and creativity.

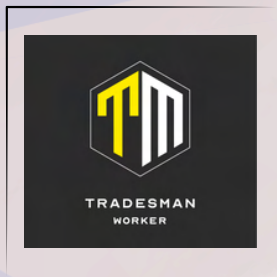

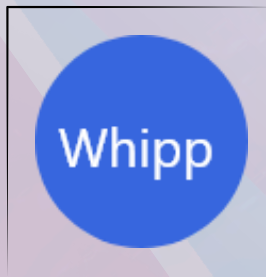

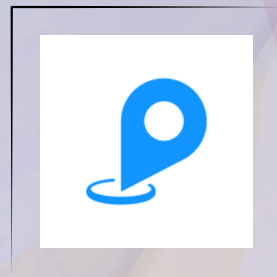

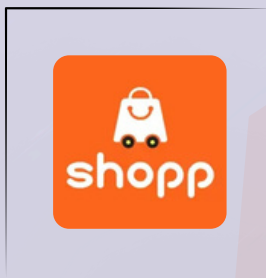

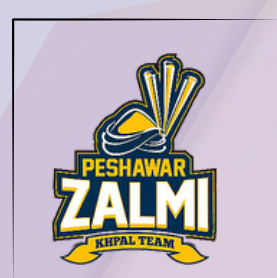

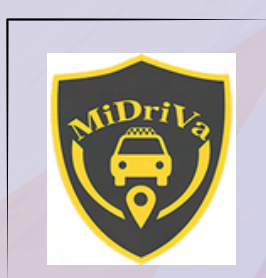

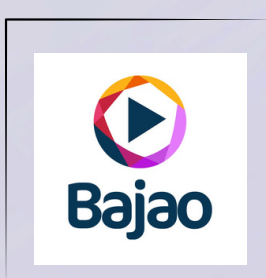

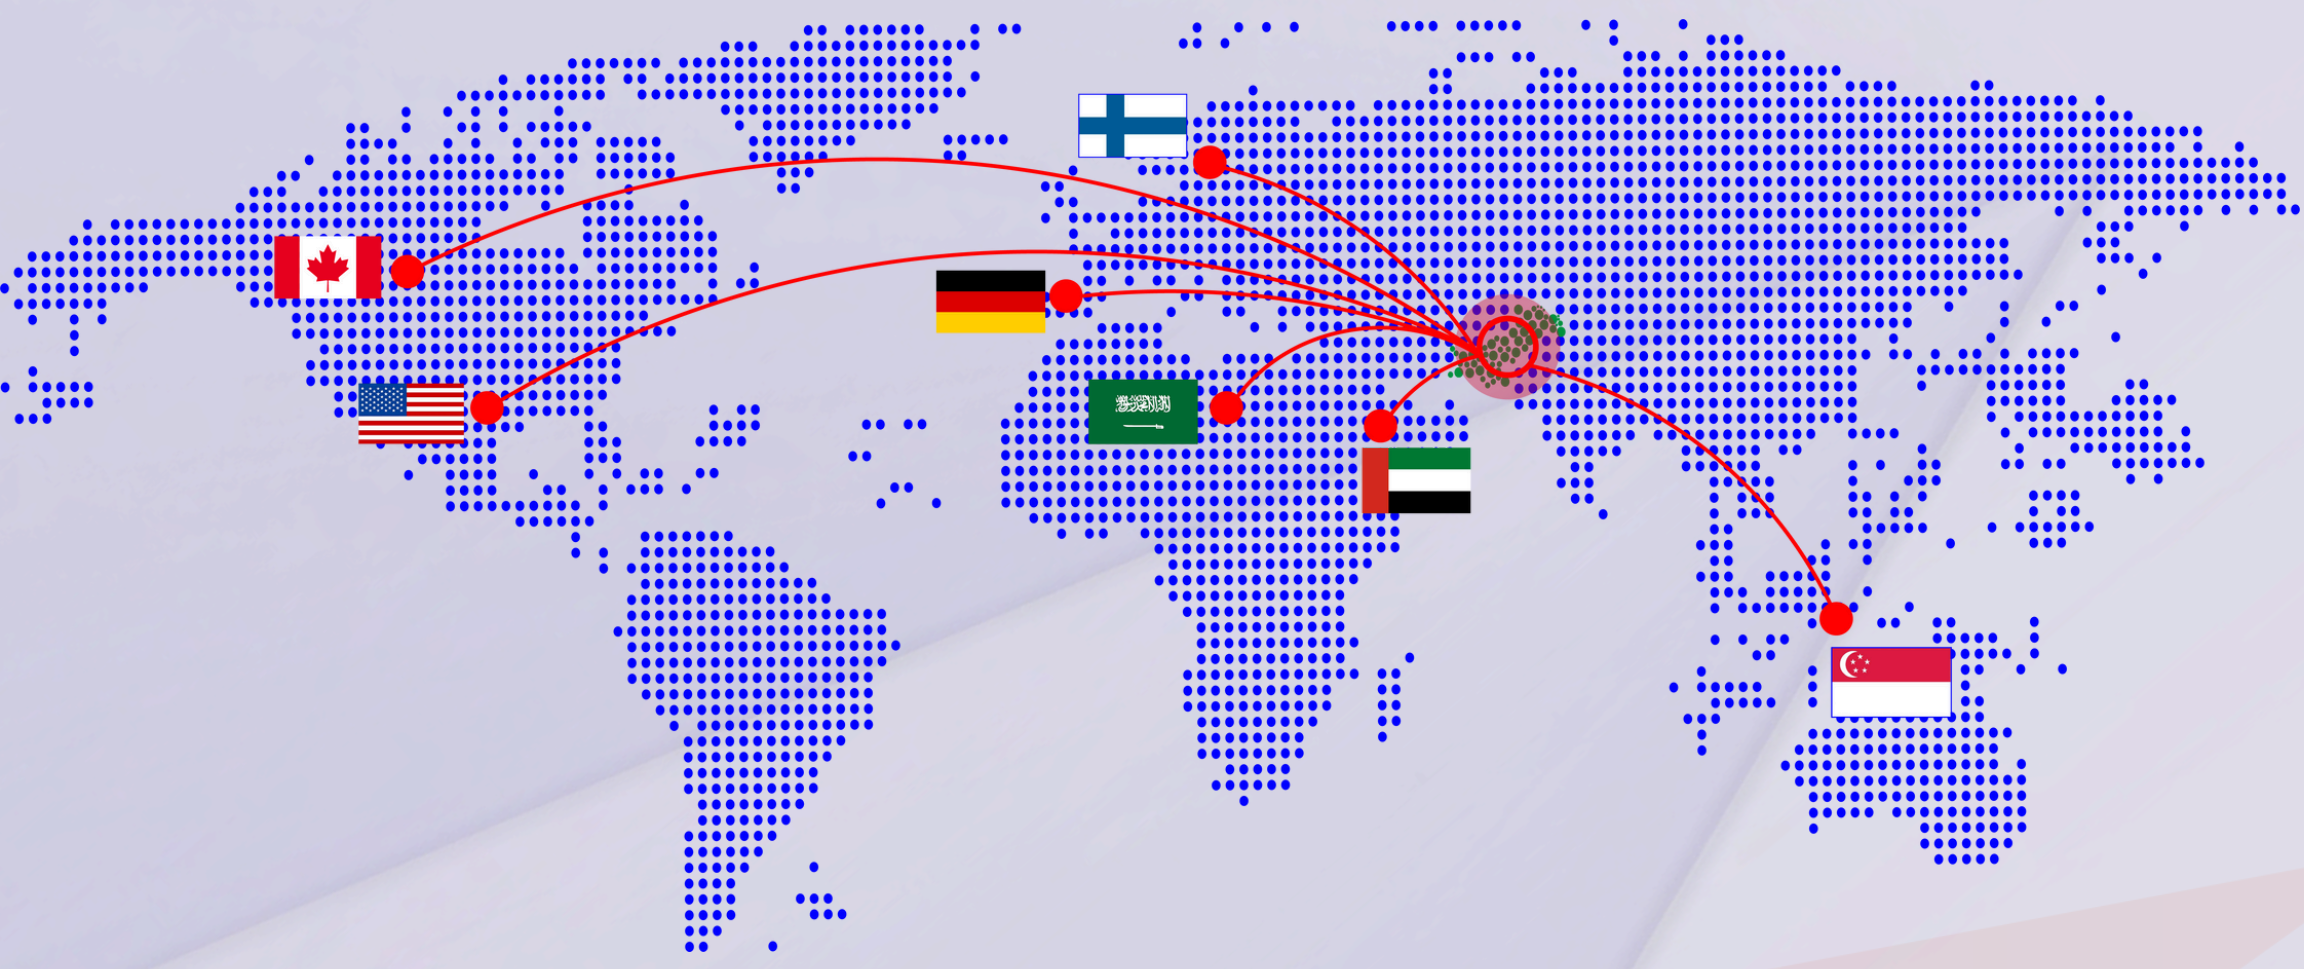

GAME DEVELOPMENT

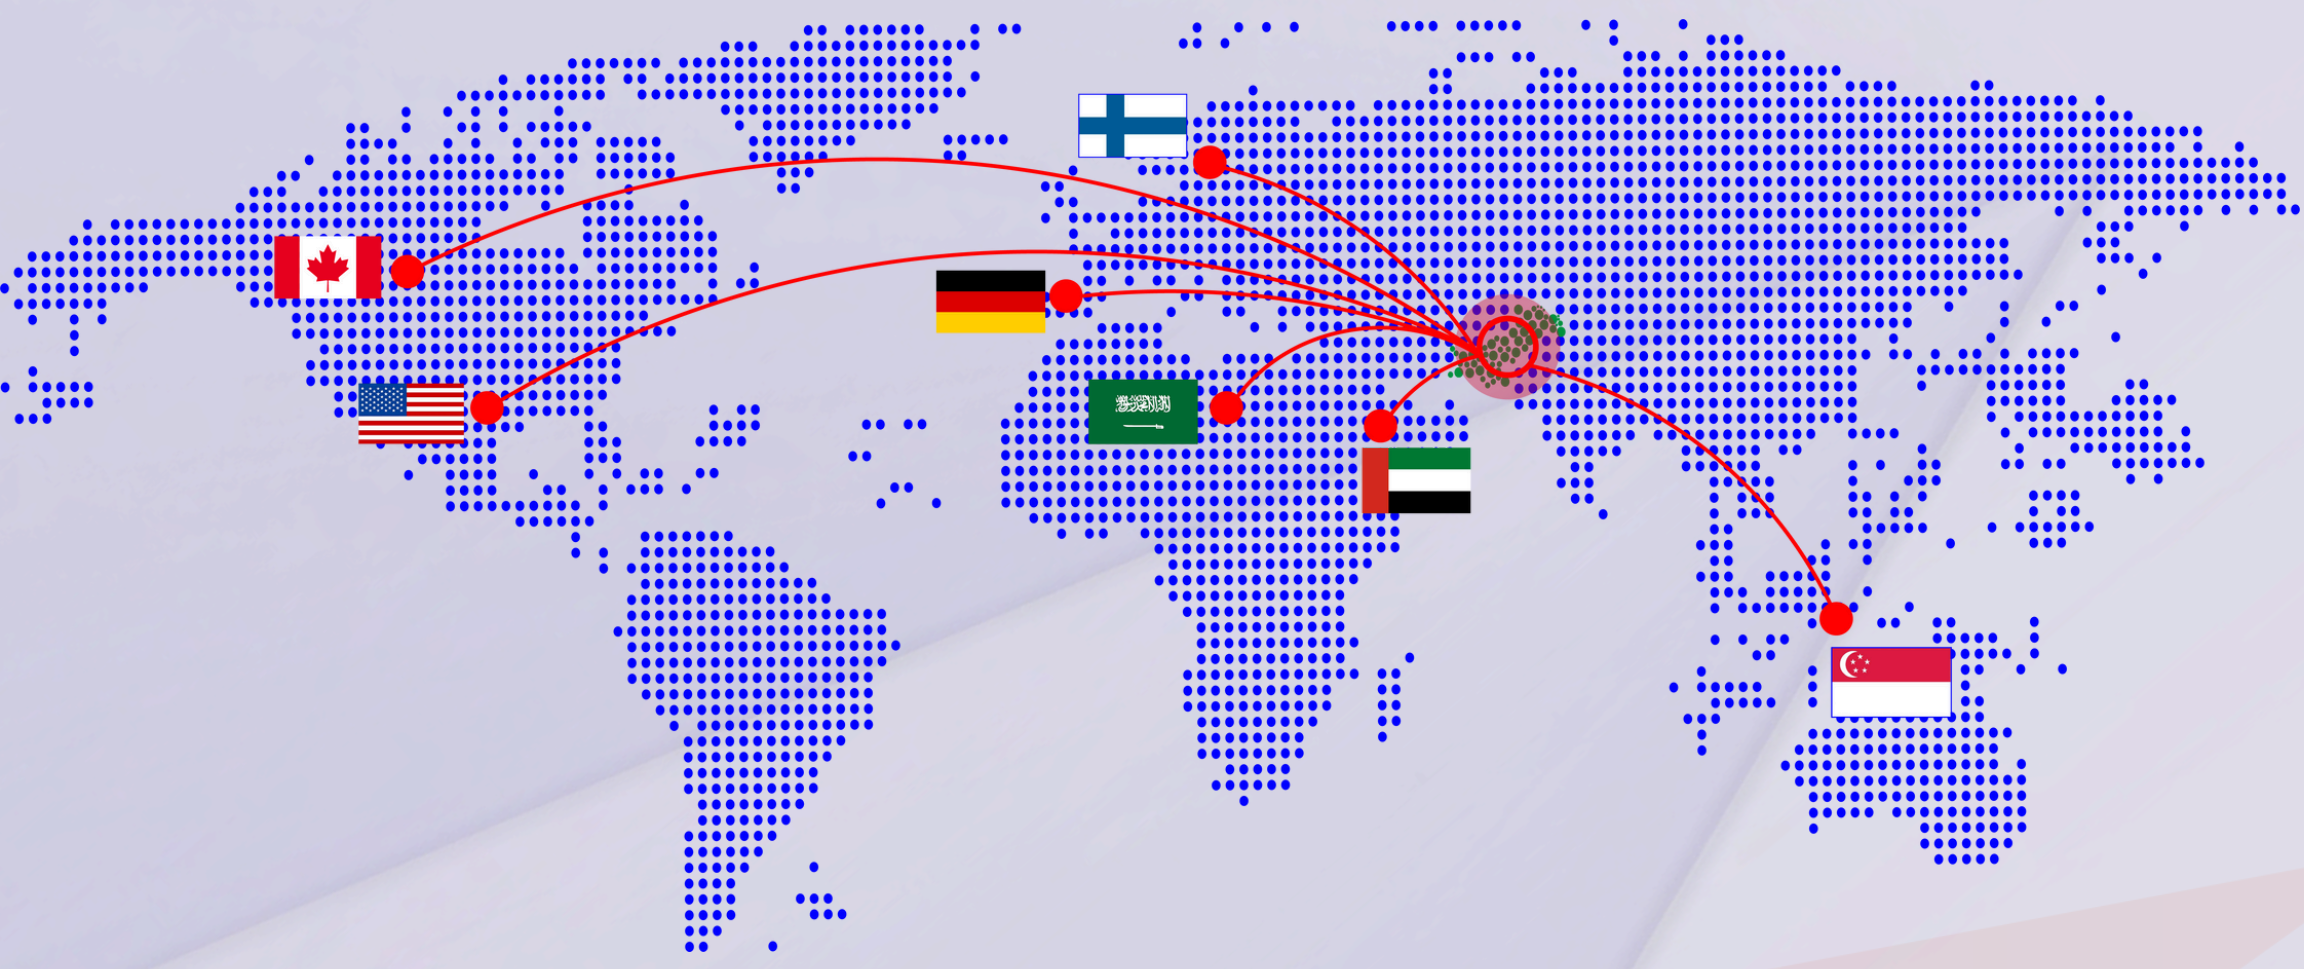

Knife Hit is an exciting mobile game where players throw knives at a spinning wooden block. Developed for mobile platforms, this game features simple yet addictive gameplay mechanics, precise controls, and a variety of challenging stages. Players aim to strategically throw knives to hit targets without hitting other knives already stuck in the block.
